Philosophical Counselling

This pandemic has shifted the gravity of our abstract concerns to more concrete concerns. Consciously or unconsciously our lives have completely changed.
It is essential to understand our lives from a different spectrum of humanity and rationality.

Philosophical Counselling is the need of the hour

I have recently started my Practice as a Philosophical Counsellor. I am a certified Philosophical Counsellor from American Philosophical Practitioner's Association(APPA).

Philosophical Counselling is a contemporary Counselling approach where the concerns of the individuals are addressed via various Philosophical tools and methods in a dialogical order.

Please read the following document for more details.

If you have any further questions about my methods or would like to schedule a free consultation, please get in touch today or visit my website.
