FROM THE PRINCIPAL'S DESK

30th September, 2021

Dear Students,

Welcome to the world of wild ideas, hopes and aspirations.

Modern man, proud of his outstanding achievements has never been so helpless until he bowed down before Covid 19 and its mutating variants. His condition became really deplorable in April-May 2021 in India. The situation was almost same, everywhere in the world. We all know that the nightmare is not completely over but things have certainly improved to some extent with the emergency COVID vaccines.

The sudden outburst of Covid changed the way human mind used to think and live before December 2019. The pandemic has posed new struggles and tough challenges. Human beings now have no other option than to be carried away with the change which is unprecedented. The change is all pervasive encompassing all spheres of life.

We in HEI need to understand the nature and structure of change that has crept in. It is imperative that we prepare ourselves to accept the change and find out ways to sail through it. We, being academic leaders at higher education institutes, are bound to emerge from this crisis by pooling all our resources - physical, social, cultural, psychological, technical and by analysing the change in our thought process. More than ever, strategic planning is required to act in line with the SDGs.

If we look at education, digital education and hybrid learning are the new norms, if things change for the better and education does not continue to be entirely online. Our education system needs to be sustainable and effective for which a digital education action plan is the need of the hour. For successful implementation of such a plan, we need an ecosystem which has adequate infrastructure, connectivity, equipment, digitally confident teachers, user friendly tools and above all, a high-quality content. Skills and competencies need to be built around the idea of integrating online education system across the world with local and the global phenomenon. It is pertinent that we should have our digital education plan and should prepare a roadmap for digital quality education that could safeguard our culture, cultural heritage, cultural diversity and the creative sectors which are essential for human development.

We have to factor in climate change, health, happiness and peace while building up a strong economy, social justice, jobs, security and rule of law. We also need to ensure democratic and cultural values to our education system as we are not only dealing with the present but also with the future.

Above all, we at higher education institutions in India are expected to be the leaders giving directions to the world and trying to bring back the lost faith in human values while paving the way towards a promising future for mankind through our academic endeavours. Let us align our education ecosystem to NEP 2020 which inspires us to gain our lost confidence and to hold the world in our folded hands. The NEP connects us to our national roots to grow us sustainable wings seeking nectar from our Indian Knowledge System.

We thank our staff, students and society who adapted themselves to the abrupt and inevitable change with a resilient spirit and could perform their duties like a Karmyogi despite all the odds. Let's have faith in ourselves and pray together like teachers and students in the Vedic period,

“संगच्छध्वंसवदध्वंसवोमनांसिजानताम।
देवभागमयथापूर्वसंजानानाउपासते।“

With best wishes,

Prof. (Dr.) Pratyush Vatsala

DU college creates a 100-bed isolation centre

Shikha Chhetri@timesgroup.com

New Delhi: In the midst of an unprecedented Covid crisis, Delhi University's Lakshmibai College has set up a 100-bed isolation centre inside the campus. The centre is in north-west Delhi and will start taking in Covid patients from Thursday onwards. However, it will only cater to those with mild and moderate symptoms and people below 70 years of age.

Sangita Sharma, one of the teachers at the college, had been the trustee to Covid last week.

The centre has been dedicated to her Prayash Vatsala, principal of the college, said TOI. As a vaccination manager ICU facilities, we are not going to accept serious patients. However, we have arranged for oxygen too. The opening of a centre delayed as we were also trying to have a backup. The centre has been set up in collaboration with an NGO and with permission from the district administration.

"I thought when there is infrastructure in place built with public funds, why not use it for people who are struggling for facilities. For those who are in residential institutions have been closed. At least if patients with mild and moderate symptoms can be treated here, a lot of pressure will be reduced from the hospitals," she added. All the necessary arrangements for

"Many people from Ashok Vihar supported us. We have doctors and a dedicated team of nurses. We have taken young nurses who have completed their studies. Facilities for them too in the campus have also been provided," said the principal.

Deen Chand Jain, the principal of the college, said, "We're trying for it. Once it is done, everyone will be relieved. We are trying to involve some civil society members as well. It is a collaborative effort of the DM office, DUL, Lakshmi Marjani and the college."

According to an official from the university, it will be a 100-bed Covid isolation centre. It is expected to be up from the weekend and will be the hostel block of DUU in the

CHOICE BASED CREDIT SYSTEM (CBCS)

The CBCS provides an opportunity for the students to choose programs from the prescribed programs comprising core, elective/minor or skill-based programs. The programs can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. Core Program: A program, which should compulsorily be studied by a candidate as a core requirement is termed as a Core program.

2. Elective Program: Generally, a program which can be chosen from a pool of programs and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Program.

2.1 Discipline Specific Elective (DSE) Program: Elective programs may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective programs of interdisciplinary nature (to be offered by main discipline/subject of study).

2.2 Dissertation/Project: An elective program designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a program on his own with an advisory support by a teacher/faculty member is called dissertation/project.

2.3 Generic Elective (GE) Program: An elective program chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective. P.S.: A core program offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

3. Ability Enhancement Programs (AEC)/Competency Improvement Programs/Skill Development Programs/Foundation Program: The Ability Enhancement (AE) Programs may be of two kinds: AE Compulsory Program (AECC) and AE Elective Program (AEEC). "AECC" programs are the programs based upon the content that leads to Knowledge enhancement. They ((I) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC programs are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

3.1 AE Compulsory Program (AECC): Environmental Science, English Communication/MIL Communication.

3.2 AE Elective Program (AEEC): These programs may be chosen from a pool of programs designed to provide value-based and/or skill-based instruction. Project work/Dissertation is considered as a special program involving application of knowledge in solving/analyzing/exploring a real-life situation/difficult problem.

3.3 Skill Enhancement Program-SEC Are Value Based and are aimed at providing Hands-On training, competencies, skills, etc.

Refer to the following link on the University of Delhi website for information related to structure, names of papers and other details of various undergraduate programs under Choice Based Credit System.

Computing Merit Score: General Guidelines Program specific eligibility criteria determine the merit score on which admission to each program is based. Candidates must study these criteria carefully to understand if they qualify. The detailed program specific criteria are in sections 2.2 – 2.7 below.

1. All academic subjects may be treated as “elective.” The subjects eligible for computation (subject to program-specific criteria) are listed above in List A and List B.
2. The University may define any other relevant subjects as academic/elective for a particular program.
3. Merit is calculated through program-specific combinations of marks obtained in the qualifying examination in the “**Best Four**” subjects for admission to programs through the faculties of Arts, Commerce, Mathematical Sciences, Music, Social Sciences, Applied Social Sciences & Humanities, and program-specific combinations of “**Three Subjects**” for admission to programs under the faculties of Sciences and Applied Sciences.

If a paper’s title does not match with what is specified in List A and List B above, it is mandatory for the candidate to provide a content equivalence certificate from the Principal/Head of the Institution last attended, certifying that the paper’s content is equivalent to NCERT Class XII syllabus for that paper. This equivalence certificate must be accompanied by a copy of the syllabus of the paper attested by the Principal/Head of the Institution. However, the University of Delhi’s decision on the matter will be final and binding.
2. If the candidate has studied “Botany” and “Zoology” separately, the total of marks in both these papers must be entered in the respective fields for theory and practicals under the heading “Biology” in the field provided in your admission form.

The candidate should separately fill into the online Admission Form the marks obtained and maximum marks for theory and practical each, and the totals, as per their marksheet. In case the **theory/practical breakup is not specified**, the candidate will be required to enter only their total marks in the first field (“Theory”) for that paper in the online Registration Form
5. “*Internal Assessment*” marks, if any, mentioned in the marksheet will not be used for any calculations. Any discrepancy in the entry of marks pertaining to theory, practicals or totals will be the sole responsibility of the candidate. Candidates are advised to exercise utmost care in filling up the registration form as errors in entry may lead to summary rejection of the form.

Creative Board

Creativity is humanity at its best. It is one of the most mysterious and yet the most revelatory aspects of our existence. Theories abound about the creative process but none would deny the magic of the moment when something new is created and takes form. It is a god-like demiurge, which may emerge from a deeply personal realm but reaches a universal plane in its finished form. Creativity, thus paradoxically, makes us a creator as well as fully human. It enables us to cast in an aesthetic mould our thoughts and feelings. All of us have a Blake, Eliot, Tagore, Picasso or a Disney in us. As a unique space that provides the opportunity to explore the creative potential within all of us, we invite you to share your creative ventures on the CREATIVE BOARD. Your entries could be in the form of poems, stories (not more than five hundred words), sketches, paintings. Students may mail them to: lbccreativeb@gmail.com
